

PATTYN®

IT'S ALL ABOUT U

IT'S ALL ABOUT U

“

Our Mission

Providing turnkey packaging solutions and services in a worry-free way to improve the efficiency, performance and quality of industrial packaging.

Since 1952, Pattyn has been manufacturing **high-performance packaging machines and entire lines** to pack, weigh fill or count **products for industrial use** into lined containers. All this time, we have been pioneers in the development of new packaging concepts for food and non-food processing companies worldwide.

Nowadays, as a **family company** run by the third generation, we keep searching for the best packaging solution for each of our customers. Whether you want to **improve your efficiency, minimize your product giveaway, increase your capacity, boost your product shelf life or reduce your packaging costs**, Pattyn has the right solution for you.

And now more than ever, we want to do that in a **hassle-free way**. Each member of our team is committed to taking our customers on a smooth journey on which everything is taken care of.

Our ultimate goal is to have you sit back and relax throughout the entire project.

Welcome to Pattyn. For us... **It's all about U.**

Stan and Lynn Pattyn

How it all started...

The Foundation

Jean Pattyn founds the company Pattyn in his front yard in Bruges.

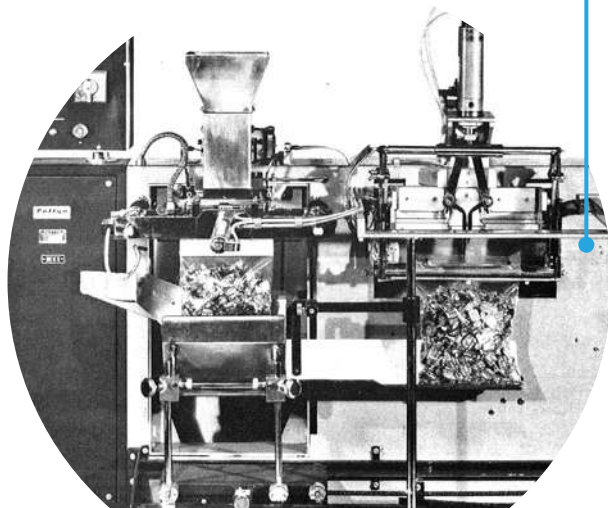

1952

Pioneering years

- Paul Pattyn joins the company
- Launch of first fully automatic bagmaker inserter
- Installation of first complete semi-liquid lines for Unilever
- Installation of first automatic bakery solutions

1976 – 2004

The beginning

Construction of first fully automatic industrial weigher for candy

“
Sharing passion,
inspiration and
knowledge
since 1952

Focus on market specific solutions

- Introduction in specific industries: nuts, dried fruits etc.
- Dedicated XL machines and XL lines to pack vegetables, nuts, preforms and tobacco into pallet containers
- Expansion of the Pattyn Group with Pattyn Metal Construction and sales representatives in South America, Germany and Pacific

2004 – 2012

2012 – 2021

2022 ...

Expansion years

- Stan and Lynn Pattyn, 3rd generation, join the company
- Operating worldwide in many different markets
- Launch of new generation bagmaker inserter
- Expansion of the Pattyn Group with Pattyn Bakery Division (now Pattyn France), Pattyn North America and GMP (Pattyn Film Division)

It's all about U

- Continuous innovation
- Development of new services mainly based on digitalization
- Service-minded approach
- Customized services before, during and after start-up

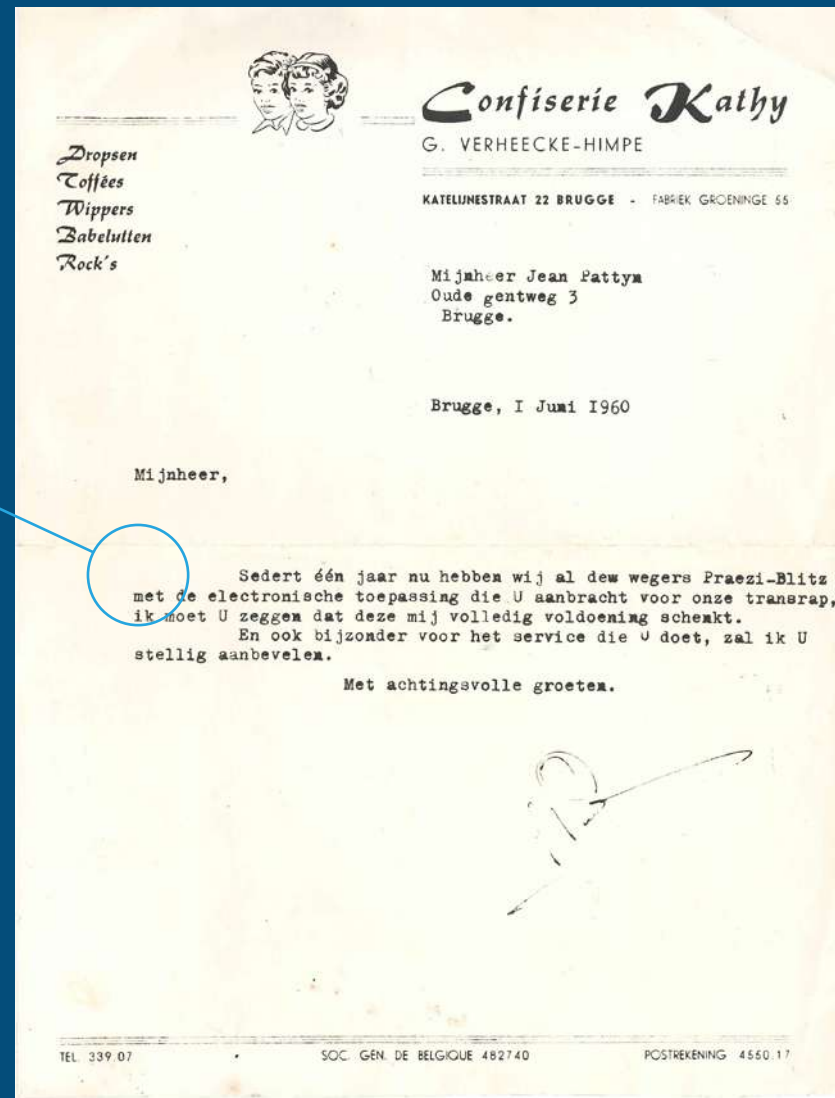

Right from the start....

Original letter from our customer Confiserie Kathy, dated 1 June 1960, to Jean Pattyn, grandfather of Stan and Lynn.

Dear sir,

For the last year we have been using the Praezi-Blitz weigh filler that you have automated for us, and I have to tell you that this machine serves me to my greatest satisfaction. And for the extraordinary service that you offer, I will strongly recommend you.

Sincerely,

It has always been about U

Jean Pattyn designed and developed the **first 'doseur-peseur'** back in the early 60s. It weighed and dosed products, mainly for food companies. That letter... we've been cherishing it ever since.

When our father, Paul Pattyn, joined the company in the late 70s, we were still young and we loved to hear all about the **adventures he experienced with customers worldwide**. Managing a small business, our father knew every one of them personally. Back then, we often had customers dining with us. It made us so proud.

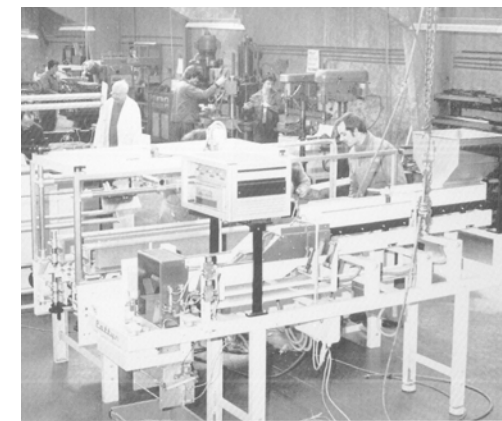

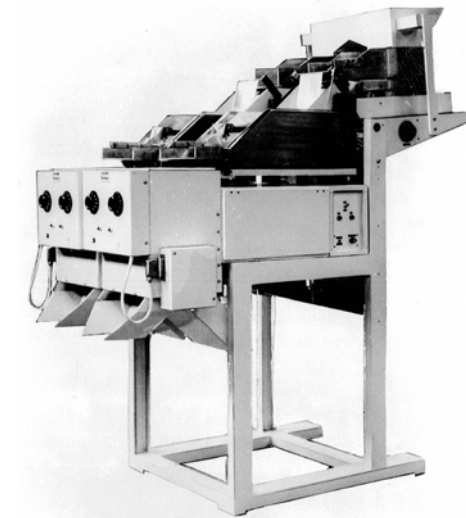

Nowadays, we support more than one thousand customers worldwide. Sadly, we can't invite them all for dinner anymore. But we are still committed and passionate to making the most of our work and we stay eager to **take our customers on a fulfilling journey**.

We systematically measure how our customers experience their cooperation with us, because we set the bar high and we want to keep learning and keep getting better. Funnily enough, the customer feedback hasn't changed too much over time. And every time we hear about the excellent journey they experienced, we realize: **THAT IS WHAT KEEPS US GOING**.

We keep working every day to offer this same service to every one of our customers worldwide. Of course, we are also passionate about technology and we love our products.

But in the end, time and time again,
IT'S ALL ABOUT U.

Stan and Lynn Pattyn

The Pattyn Philosophy

Pattyn tailors to your packaging requirements, with an in-depth understanding of your needs and what you would like to achieve. With attention to detail, we want to bring each project to the highest service level.

Worry-free journey

With a customer-intimate approach you benefit from a hassle-free journey all the way. Our highly **skilled and dedicated people** take care of you from the very first contact to the installation of your packaging line and throughout the many years of post start-up.

Being **supported every step of the way**, you only need to focus on your core business and the processing of your precious product.

Family company with 70 years of experience

For three **generations** and with more than 70 years of experience in innovative food packaging equipment, Pattyn is an expert in the field. We know perfectly **how to pack, weigh fill or count your industrial products** into lined containers, no matter which industry you operate in.

To achieve this we rely on a loyal team of specialists who make the difference day in and day out. And our core values serve as a compass: **Flexibility, Teamwork, Commitment and Humor.**

Turnkey solutions at lowest total cost of ownership

With our proven technology we offer you turnkey solutions from case erecting to palletizing.

By also integrating OEM equipment you benefit from only one supplier, taking full responsibility of the entire line.

We care about your investment and the continuity of your packaging line. Providing high-quality equipment, requiring low maintenance, Pattyn guarantees you the **lowest total cost of ownership.**

Global Partner – Anywhere, Anytime

Across five continents and in **70 countries** worldwide, Pattyn has installed more than 900 full packaging lines.

Thanks to our worldwide representatives we are always nearby and maintain close relationships with you. Our dedicated service team of more than 60 people support you with high quality services, **wherever you are based.**

Join us for a worry-free journey

While you sit back and relax throughout the project, Pattyn will take care of all your packaging challenges. We are ready to take you on a smooth journey.

Define needs

From the beginning our sales experts listen to your needs and make sure they thoroughly understand your business and specific challenges.

Propose solution

With their extensive experience in both industrial packaging and many different industries, our sales experts assist you in finding the best possible solution to safely pack your products.

Guide entire project

Once we've found the best solution, one of our project managers monitors your project from A to Z and guides you throughout every phase of it.

He also makes sure your equipment or full line is well tested and fine-tuned according to your needs before it's shipped.

Maintain relation

Once your line is running, we keep in touch and support you throughout the lifetime of your line. Our after sales managers – all former experienced service engineers – are at your service. They think along with you, proactively visit you, advise you on upgrades, retrofits and so much more.

On top of this, our free online customer portal Pattyn360 contains all relevant information about your Pattyn equipment and is available 24/7.

Start-up of project

On arrival at your premises, you can count on one of our skilled **service engineers** to implement your line in the shortest time possible.

During start-up he also intensively trains your operators and technicians so they feel confident and empowered to handle the equipment.

Together with our dedicated and committed people

**Frans Mortier —
Sales Manager at
Pattyn Belgium**

Sharing good things.

Pattyn sales manager since 2008, Frans loves to take care of his customers. He is always available and not just for work-related matters.

When an Asian customer casually asked if Frans knew a nice place in his hometown Ghent to stay with his family, he didn't hesitate for a second and personally looked for a cosy B&B. And of course he also shared his list of favorite pubs, restaurants and city highlights. Sharing is caring, you know...

Helping others.

That's what it's all about for Cyril. Next to his full-time job he has also been a volunteer firefighter since 2005. Together with his 80 fellow firefighters, he keeps the vicinity of his hometown safe. Being meticulous can make the difference between life and death.

Having been with Pattyn France since 2006 as an electrical engineer he still is a meticulous and trusted colleague that everybody can count on. Extroverted and full of humor, he makes sure that Pattyn machines are constructed perfectly on an electrical level.

**Cyril Revel —
Electrical Engineer at
Pattyn France**

Feeling responsible.

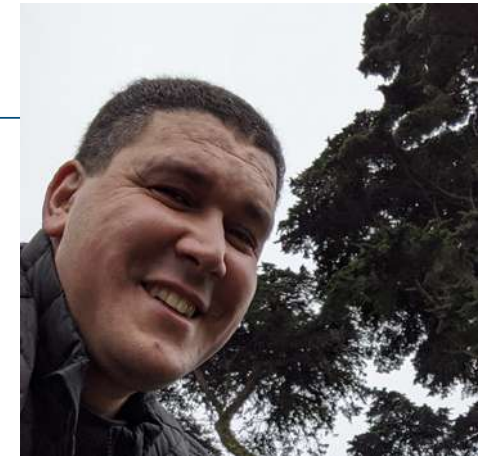

As a child, Christophe dreamed of becoming an ambulance driver. Together with his friends he loved nothing more than staging accidents and nursing each other.

As an after sales manager his mission is to provide the customers with a “healthy” machine so they don’t have to worry about their production. Nothing is too much for Christophe to achieve that goal. Throughout the covid-pandemic, he has been jumping into his car and driving from the north of the Netherlands all the way to the Côte d’Azur and back via Switzerland to provide annual maintenance.

**Christophe Lagrou —
After Sales Manager
at Pattyn Belgium**

**Mohamed Bouaraba –
Field Service Engineer
at Pattyn North America**

Never giving up.

Mohamed has been with Pattyn North America since 2016 but grew up in Algeria. At 18 he dreamed of a better future in the US. He applied and got selected for a residence permit. After 5 years of hard work, Mohamed spoke English, got his American degree, found a job and had earned his American citizenship. This can count in terms of perseverance!

As a field service engineer he takes care of his customers with the same perseverance and positive mindset. He installs the packaging machines impeccably and in any case a problem occurs, he continues until he finds the right solution.

Family company with 70 years of experience

With 70 years of experience and know-how in industrial packaging solutions, the family company Pattyn is an expert in the field and guarantees the very best handling of your products.

“

A turnkey solution
for each industry
and each challenge

- Edible oils & fats
- Meat & Poultry
- Fish
- Fruit & vegetables
- Dried fruits & nuts
- Bread
- Pastry
- Frozen dough products
- Solid chocolate
- Powders & food ingredients
- Caps & food packaging
- Preforms & resins
- Tobacco

Tailored to your market

By continuously responding to our customers' demands we gradually developed **tailor-made packaging** equipment for different kinds of industries. Regardless of whether you are a food or non-food processing company, we have the solution you need to easily pack, weigh fill or count your industrial products into lined 5 to 30 kg containers or pallet sized containers.

Turnkey Solutions for industrial packaging

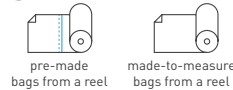

With our fully automated turnkey solutions which are 100% Pattyn made you benefit from a consistent process, optimal operational efficiency and maximum uptime.

Case erecting

The **case erector** forms perfectly rectangular cartons, guaranteeing a trouble-free packaging process. The bottom flaps can be closed with tape or hot melt.

We also offer a **unique XL case erector** forming pallet boxes.

Bag inserting

If you require a compact **bag inserter** offering maximum convenience, a high-performance bagmaker inserter handling many different containers or a high-end bagmaker inserter handling different types of special film, we have the appropriate solution for you.

For the automatic bag insertion into pallet containers we offer a **unique XL bagmaker inserter**.

Quality control

Our particularly versatile **quality control** systems perform various dimensional checks (length, width, height...) and different aspect controls (scoring, baking level etc.).

If you require a quality control system offering high flexibility with three levels of rejection, a better reliability and improved consistency we have the solution.

Counting and filling

Pattyn offers you simple, compact, flexible and easy-to-use solutions for all your complex counting operations.

High-technology **counting systems** with 3D technology or vibrating channels.

Automatic box filling for all types of bakery or pastry products.

Weigh filling

You benefit from more than 60 years of weigh filling technology.

If you require a **semi-liquid weigh filler**, a **linear filler** for bulk solids or a **tobacco weigh filler**, we provide you with the appropriate solution according to your application and required filling capacity.

Combined solutions

Combining the proven technology of our standard solutions, we developed several **combined packaging machines**.

“ We also integrate end of line and OEM equipment, taking full responsibility of your project

Robotic filling

Robotic solutions for dimensional quality control and to handle many specific products, requiring special treatment because of their shape (buns, ciabattas, fresh pizza dough, donuts, cakes, pies and so on).

Bagging and case packing

If you require a flexible solution to pack your bakery products **into a bag**, we have the most suitable solution for you.

Automatic case packing by a reliable and robust machine, reaching high speeds.

Bag closing

Protect your bulk products with the innovative bag closers, which automatically **close the bag** by **folding, sealing, vacuum sealing** or **tie-wrapping**.

For the automatic closing of bags inserted into pallet containers, we offer a **unique XL bag sealer** or folder.

Case closing

The **case closer** automatically folds the top case flaps and closes them with tape or hot melt.

To maximize operator convenience, the software of the case closer can be integrated in the bag closer.

Palletizing

The flexible and compact **robot palletizer** completes your Pattyn packaging line. Available in four standard configurations or customized to your specific needs. Easy palletizing of a wide variety box types and box sizes.

Pattyn Group

With our **6 divisions**, **11 local sales and service representatives** and **30 business partners**, the Pattyn Group has strengthened its position worldwide in the industrial packaging industry and will maintain its leading position in an ever-changing market.

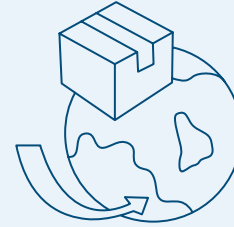

WITH MORE THAN **550** employees

THE PATTYN GROUP SUPPORTS MORE THAN **1500** customers worldwide

CONSOLIDATED TURNOVER OF **€ 130** million

Global Partner — Anywhere, anytime

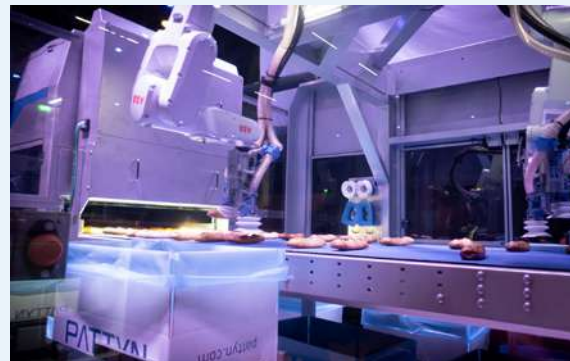

Pattyn is at your service, anywhere, anytime. We are convinced that being close to our customers makes a big difference.

Having our **local sales and service** representatives in Europe, North America, South America, Pacific and Asia, we deliver what we promise. Hope to meet you somewhere soon.

Your packaging machines and fully automated lines are designed, assembled and made ready for transport in our **two manufacturing companies, Pattyn Belgium and Pattyn France.**

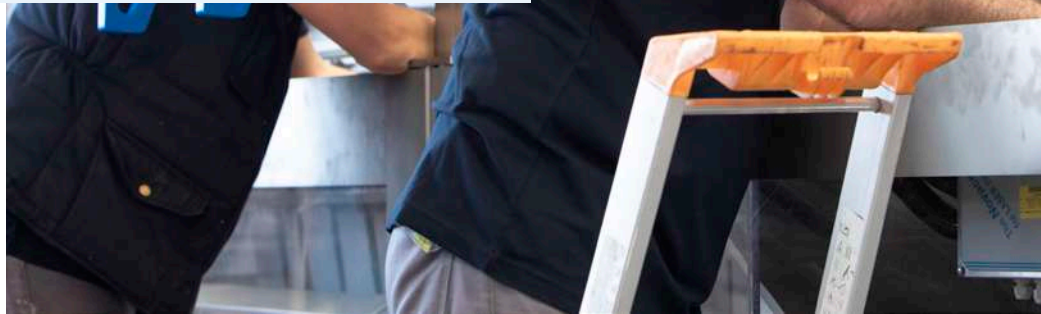

The **two divisions, Pattyn Metal Construction** and **Pattyn Film Division**, provide additional knowledge and experience to the group. This is how we are able to offer you the complete solution from sheet metal to machines and customized PE film under own management.

“

Every Pattyn employee with whom we interacted, from initial sales inquiry to service, conducted themselves in a very cooperative and professional manner.

High Liner Foods (USA)

Satisfied customers make our day

“

In Pattyn we found a professional and attentive partner. We would certainly recommend Pattyn to any prospective new buyer.

Mr. Miloš Mladenović,
Skroz Dobra Pekara (Serbia)

“

Pattyn guided us through the entire process and solved the specific packaging challenges we had.

Mr. Vaishak Bollineni,
Continental Coffee (India)

“

We benefit from a high-quality packaging line, meeting the food safety standards and required accuracy.

Mr. Hamed Kebriyaei,
Savola Behshahr Company (Iran)

“
 The customer service we received and continue to receive is beyond excellent.
 Ms. Jeanne Thomas,
 Haleakala Walnut Shelling (USA)

“
 Whenever needed, Pattyn offers high-quality technical service & support. Polite and very helpful staff from the first call through to sales and technical department. An excellent customer experience.
